[Safety Threat Report](#)

Dear D12 Families,

What a fabulous start to the 2025-26 school year! Schools are meant to be busy places filled with happy learners, and I'm thrilled to share that's exactly what we have in District 12! I am incredibly grateful to our educators who worked hard to be ready to open our doors on August 20, our custodial crew who does so much to keep our buildings clean and maintained, and our office staff (both at the District Office and each school) who keep everything humming behind the scenes.

## September Board of Education Meeting

Our September meeting will be held on September 16 at 7:00 p.m. at Village Hall. Families will receive a link just prior to the meeting if you would like to watch the livestream.

## How Do I Find Important Information?

At the top of this newsletter, you will see some permanent links to help you quickly locate important information. The current school calendar is linked, the next board meeting date and board meeting agendas are listed/linked, and a link to our district website is included. Finally, there is a link to report a school safety threat. This link can be used to report something you see of concern. It could be on school grounds, on the bus, or something your child reports to you. While providing contact information of the person making the report allows us to gain additional detail if needed, you may also report anonymously. These reports are seen by school and district administrators and acted upon, usually within 24 hours.

## An Opportunity to Meet Your Board of Education

Our District 12 PTO will host its Rock the Block on Thursday, September 4 from 5:00 p.m. to 7:30 p.m. on the grounds of SHS. From 5:30-6:30 p.m. we will be hosting a District Bootcamp in the Multi-purpose Room at SHS to provide families with additional information on a variety of topics. Additionally, Board of Education members will be available during this time to meet and chat with families. We look forward to seeing you there!

## Wondering About Your Learner's Day?

I don't know any parent who hasn't experienced getting an "I don't know" or "Nothing much" when asking, "What did you do at school today?" This can be particularly true at the start of the year when learners are adjusting to the long day after a less structured summer. Attached is a document with different types of questions that may get you the more detailed responses that all parents crave:
