## About the Report Card

**State and federal laws require public school districts to release report cards to the public each year.**

The federal Every Student Succeeds Act requires that states annually assign schools a summative designation that meaningfully differentiates school performance based on multiple performance measures. All states were offered a waiver of this requirement for school year 2020-2021 due to the impact of COVID-19. For more information about Illinois' accountability system please visit [www.isbe.net/summative](http://www.isbe.net/summative).

For additional information, refer to the [Public Business Rules for 2024 Report Card Metrics](#) and the [2024 Glossary of Terms](#).

## About the data

Academic progress data includes information regarding assessments, such as student participation rates, proficiency rates, and mean student growth percentile. Other information regarding academics may include certain touchstones, such as eighth-graders passing Algebra 1, graduation rate, and various advanced coursework information. Academic progress often is disaggregated further into demographic student groups.

## IAR

### What is it?

This shows the percentage of students scoring at each of the Performance Levels for the Illinois Assessment of Readiness (IAR). Each Performance Level is a broad, categorical level defined by a student's overall scale score and used to report overall student performance by describing how well students met the expectations for their grade level/course. Each Performance Level is defined by a range of overall scale scores for the assessment. There are five Performance Levels for IAR assessments:

- Level 1: Did not yet meet expectations
- Level 2: Partially met expectations
- Level 3: Approached expectations
- Level 4: Met expectations
- Level 5: Exceeded expectations

Students performing at levels 4 and 5 met or exceeded expectations, have demonstrated readiness for the next grade level/course and, ultimately, are on track for college and careers. Performance Level Descriptors describe the knowledge, skills, and practices that students should know and be able to demonstrate at each Performance Level in each content area (English language arts [ELA] and mathematics) and at each grade level/course.

## DLM

### What is it?

This shows the percentage and number of students scoring at each of the performance levels for the Dynamic Learning Maps Alternative Assessment (DLM-AA) for students with cognitive disabilities. DLM-AA results are not based on raw or scale scores; all data is based on diagnostic classification modeling. Standard setting allows us to look at patterns of number of linkage levels mastered across the tested Essential Elements, to which we can apply cut points to define categories of student performance. This performance are reported using the four Performance Levels approved by the consortium:

- Level 1 – Entry: The student demonstrates emerging understanding of and ability to apply content knowledge and skills represented by the Essential Elements.
  - Level 2 – Foundational: The student’s understanding of and ability to apply targeted content knowledge and skills represented by the Essential Elements is approaching the target.
  - Level 3 – Satisfactory: The student’s understanding of and ability to apply content knowledge and skills represented by the Essential Elements is at target.
  - Level 4 – Mastery: The student demonstrates advanced understanding of and ability to apply targeted content knowledge and skills represented by the Essential Elements.

## ISA

### What is it?

This shows the percentage and number of students scoring at each of the Performance Levels for the Illinois Science Assessment (ISA). The ISA performance levels indicate students' understanding of the Illinois Learning Standards in science for their grade level. There are four Performance Levels for the ISA:

- Level 1 – Emerging: Work at this level shows a partial application of knowledge and skills. It is superficial (lacks depth), fragmented, or incomplete and needs considerable development. Work contains errors or omissions.
  - Level 2 – Developing: Work at this level does not meet the standard. It shows basic, but inconsistent, application of knowledge and skills. Minor errors or omissions detract from the overall quality. Work needs further development.
  - Level 3 – Proficient: Work at this level meets the standard. It is acceptable work that demonstrates application of essential knowledge and skills. Minor errors or omissions do not detract from the overall quality.
  - Level 4 – Exemplary: Work at this level is of exceptional quality. It is both thorough and accurate. It exceeds the standard. It shows a sophisticated application of knowledge and skills.
-

## Proficiency

### What is it?

The federal Every Student Succeeds Act (ESSA) requires states to assess their learning standards for ELA, math, and science. Each state may also have a general assessment for the majority of its students and an alternate assessment for the 1 percent of students with the most significant cognitive disabilities. The All Test Proficiency measure is the proficiency rate for students combining all tests. A rate is calculated for ELA, math, and science.

## Growth Percentile – IAR

### What is it?

This shows the growth of students relative to other students in the state with a similar scale score in the preceding school year(s). If the data is available, the Student Growth Percentile (SGP) takes up to two prior scores. The school, district, and state measure is the sum of the students' SGP divided by the number of students with an SGP. Illinois uses SGPs to calculate growth. Proficiency shows whether or not students have mastered a common, high standard; whereas, growth recognizes progress toward and beyond the standard, no matter where each student started. Data show that students of all races, income levels, languages, and disability statutes demonstrate growth across the full range. Our rigorous assessments ensure there is more than enough room to measure the growth of even Illinois' highest achievers.

## Participation Rate

### What is it?

This shows the percentage and number of students participating in standardized testing, by subject and applicable test. Some students may take the test for one subject but not another. According to Illinois School Code, all students enrolled in public schools are required to participate in the state assessment or an alternate form of the assessment. Students who participate but for various reasons do not complete the testing process (e.g., illness) are still counted as having participated.

## Early Learning

### What is it?

This shows the percentage of entering kindergartners rated on their readiness. The Kindergarten Individual Development Survey (KIDS) was implemented statewide in Illinois in the 2017-18 school year. KIDS is an observational assessment tool designed to help teachers, administrators, families, and policymakers better understand the development of children in kindergarten. ISBE requires kindergarten teachers to collect observations beginning on the first day of in-person instruction on a minimum of 14 required measures, which are from three key developmental areas. This subset of 14 measures provides a developmental indicator for a group of students (class, school, district, state) in kindergarten.

## School Level Finances

### What is it?

Average spending per student at this school, as collected through the unaudited ESSA Site-Based Expenditure Report. Districts report the actual dollars spent in the previous school year, including site-level costs (like school staff) and districtwide centralized costs allocated to each individual school (like transportation and central office staff), divided by the school's enrollment. Districts also report whether federal or state/local sources funded the spending.

## District Finances

### What is it?

The Annual Financial Report (AFR) for a district is the final financial statement for the fiscal year of a Local Education Agency (LEA) after it has been audited by a qualified auditor. Each district is required to have an annual audit completed by a qualified and licensed auditing firm. The AFR is completed by the auditor and is submitted to Illinois State Board of Education. This displays the Revenue by Source, Expenditure by Function, Expenditure by Fund, and other financial indicators.

## Student Enrollment

### What is it?

This shows the total percentage and number of students enrolled in this school as of October 1 of the current school year. District-level enrollment includes students attending a school in the district and students placed in private schools by the district and funded by the district. The student enrollment excludes the following:

- Students given vouchers to attend private schools
- Students placed by their parents in private schools whose tuition is paid for by their parents, but who receive special education services from their home district

## Advanced Academic Programs

### What is it?

Advanced Academic Programs are courses of study to which students are assigned based on advanced cognitive ability or advanced academic achievement compared to local age peers and in which the curriculum is substantially differentiated from the general curriculum to provide appropriate challenge and pace.

Students who are Identified as Accelerated: The percentage of students who are Identified as Accelerated. Assessing a student for placement in an Advanced Academic Program may include assessment of a student as accelerated, either whole grade or in a combination of one or more subjects.

Students who are Identified as Accelerated by Demographics: The percentage of students who Are Identified as Accelerated, allowing the totals to be broken down by subject and/or other demographic and programmatic factors.

Advanced Placement (AP) Testing (College Board) Exams: This shows the cumulative total number of AP exams taken and the cumulative total number of AP exams receiving a score of 3.0 or more. Upon completion of an AP course, students may choose to take the corresponding AP Exam. Illinois state law PA 99-0358 provides that a student who takes a College Board Advanced Placement examination and receives a score of 3 or higher on the examination is entitled to receive postsecondary level course credit at an Illinois public institution of higher education.

Students Enrolled in Advanced Academic Coursework: Advanced Academic Coursework includes courses in a variety of categories, all of which may or may not be offered within an individual school or district: Advanced Placement Coursework, IB Coursework, Enriched of Honors Coursework, and Dual-Credit Coursework.

Students Enrolled in Advanced Academic Coursework – Grade and Demographics: The percentage of students who are enrolled in Advanced Placement Coursework, allowing the totals to be broken down by type of coursework, grade level, and/or other demographic and programmatic factors.

Students Assessed for Giftedness by Demographics: The number and percentage of students at this location who have been assessed for giftedness, allowing the totals to be broken down by subject and/or other demographic and programmatic factors.

Students Assessed for Giftedness Taught by a Gifted Endorsed Teacher – Grade and Demographics: The number and percentage of students at this location who have been assessed for giftedness and were taught by a Gifted Endorsed Teacher, allowing the totals to be broken down by subject, grade level, and/or other demographic and programmatic factors.

Students Identified as Gifted by Demographics: The number and percentage of students at this location who have been identified as gifted in accordance with the district's gifted assessment and academic policy, allowing the totals to be broken down by subject and/or other demographic and programmatic factors.

Students Identified as Gifted Taught by a Gifted Endorsed Teacher – Grade and Demographics: The number and percentage of students at this location who have been identified as gifted in accordance with the district's gifted assessment and academic policy and were taught by a Gifted Endorsed Teacher, allowing the totals to be broken down by subject and/or other demographic and programmatic factors.

## Students With IEPs

### What is it?

This shows the percentage of students who receive special education and related services in accordance with their Individualized Education Programs (IEPs). Each student who is found eligible for special education and related services receives an IEP that specifies supplemental services, accommodations, modifications, and supports to enable the student to be involved in, and make progress in, the general education curriculum. The state collects demographic information on all students, including racial and ethnic diversity. There are 14 disability areas, ranging from autism to visual impairment. Schools follow a process mandated by law in identifying students' disabilities and then developing IEPs.

Peer districts are districts of the same type as this district: Elementary School, High School, or Unit District.

Peer districts for Unit Districts do not include Chicago Public Schools.

## Educational Environments for Students with IEPs (ages 6-21)

### What is it?

This shows the percentage of students with IEPs and the classification of their educational environment. Special education law requires that students with IEPs be placed to the maximum extent appropriate with children who are not disabled. This means including students with IEPs in general classrooms, the least restrictive environment, as much as possible. The IEP team, which includes parents, bases placement decisions on the best ways to meet the identified needs of a student. The percentage of time spent in general classrooms will vary according to the needs of individual students, who may require supplemental services to achieve their learning goals. The percentage of students with IEPs whose educational environment was classified into one of four settings for students age 6 to 21 is as follows:

- 80 percent or more of time in a general classroom with their non-disabled peers
- Less than 40 percent of time in a general classroom
- 40-79 percent of time in a general classroom
- In a separate facility

Peer districts are districts of the same type as this district: Elementary School, High School, or Unit District.

Peer districts for Unit Districts do not include Chicago Public Schools.

## Early Childhood (EC) Educational Environments (ages 3-5)

### What is it?

This shows the percentage of students with IEPs and the classification of their educational environment. Special education law requires that students with IEPs be placed to the maximum extent appropriate with children who are not disabled. This means including students with IEPs in general classrooms, the least restrictive environment, as much as possible. The IEP team, which includes parents, bases placement decisions on the best ways to meet the identified needs of a student. The percentage of time spent in general classrooms will vary according to the needs of individual students, who may require supplemental services to achieve their learning goals. For pre-school students age 3-5 with IEPs, educational environments are classified in five ways:

- Receives the majority of special education services inside an early childhood program
- Enrolled in a regular early childhood program but the majority of special education services outside the early childhood program
- Enrolled in special education class or facility
- At home
- In the care of a service provider

Peer districts are districts of the same type as this district: Elementary School, High School, or Unit District.

Peer districts for Unit Districts do not include Chicago Public Schools.

## State Performance Plan Indicators For Students With IEPs

### What is it?

The Individuals with Disabilities Education Act (IDEA 2004) requires states to develop and submit a State Performance Plan (SPP) to the Office of Special Education Programs at the U.S. Department of Education. The SPP is designed to evaluate the state's efforts to implement the requirements and purposes of IDEA and describe how the state will improve its implementation. The plan consists of several priority areas with specific indicators defined for each area. Measurable and rigorous targets are defined for each indicator to show progress throughout the life of the SPP. States are required to publicly report on SPP Indicators 1-14. A link to Part B of the Illinois State Performance Plan can be found at <https://www.isbe.net/Pages/General-Supervision.aspx>

## Student Mobility Rate

### What is it?

A school's student mobility rate is the percentage of students who experienced at least one transfer in or out of the school between the first school day of October and the last school day of the year. Graduates are not included.

## Chronic Absenteeism Rate

### What is it?

This shows the percentage of students who miss 10 percent or more of school days per year either with or without a valid excuse. Illinois law defines “chronic absentee” as a student who misses 10 percent of school days within an academic year with or without a valid excuse. That’s 18 days of an average 180-day school year. Excused absences include illness, suspension, need to care for a family member, etc. Students need daily instruction in order to succeed. Chronic absentees are at risk of academic and social problems.

## Chronic Truancy Rate

### What is it?

This shows the percentage of students who are considered chronic truants as defined in [Section 26-2a of the School Code](#). Chronic truants include students subject to compulsory attendance who have been absent without valid cause from such attendance for 5 percent or more of the previous 180 regular attendance days.

## Truancy Rate

### What is it?

This shows the percentage of students who miss more than 1 percent but less than 5 percent school days per year without a valid excuse. Illinois law defines "truant" as a student who is subject to compulsory school attendance and is absent without a valid excuse for more than 1 percent but less than 5 percent of the past 180 school days.

## About the data

Summative designations are ratings that help families and communities understand how well schools are serving all students. Illinois has five summative designations: Exemplary School, Commendable School, Targeted School, Comprehensive School, and Intensive School. Targeted Schools and Comprehensive Schools receive additional funding and supports to build local capacity and improve student outcomes. Multiple measures of school performance and growth determine a school's annual\* summative designation.

\* Federal waivers issued in 2020 and 2021 impacted accountability. For more information, see [www.isbe.net/summative](http://www.isbe.net/summative).

## Summative Designation Meta Indicator Components

### What is it?

Summative Designation Meta Indicators: The accountability system has meta-indicators that are currently being validated for use as indicators within the summative designation calculations in future years. The Illinois Report Card is not reporting an overall calculation, but rather the sub-elements of the indicator calculations.

Percentage of Students with 95% Attendance in Junior/Senior year: The tables indicate the percentage of students in this district and the state who graduated with an average attendance rate of 95% or better over their junior and senior years.

Percentage of students who fall into each GPA category: The tables indicate the percentage of students in this district and the state whose GPA fell into one of four categorical ranges (as noted in the table).

Percentage of students who meet the IL SAT/ ACT Composite Minimum requirement: The tables below indicate the percentage of students in this district and the state who met the minimum composite score requirements on the SAT or ACT.

Percentage of students who have at least 1 Academic ELA Indicator: The tables below indicate the percentage of students in this district and the state who have currently met the requirements for at least 1 academic ELA indicator.

Percentage of students who have at least 1 Academic Math Indicator: The tables below indicate the percentage of students in this district and the state who have currently met the requirements for at least 1 academic MATH indicator.

Percentage of students who have identified a Career Area of Interest by Sophomore Year: The tables below indicate the percentage of students in this district and the state who have identified a career area of interest by their sophomore year.

Percentage of students who have earned 1, 2, or 3+ career ready indicators: The tables below indicate the percentage of students in this district and the state who have earned 1, 2, or 3+ career-ready indicators.

Percentage of students who have earned a College and Career Pathway Endorsement: The tables below indicate the percentage of students in this district and the state who have earned a college and career pathway endorsement.

Student Participation in Fine Arts: The tables below indicate the percentage of students in this district and the state who were enrolled in one or more fine arts courses in the previous year.

Fine Arts: Teacher Qualifications: The tables below indicate the percentage of students in the district and the state enrolled in fine arts courses taught by teachers licensed to teach fine arts courses.

Summative Designation Meta Indicators/P2 Meta Indicators/Chronic Absenteeism: The percentage of students in grades K, 1, and 2 who are chronically absent.

Summative Designation Meta Indicators/P2 Meta Indicators/Dual Language Programs: The percentage of students designated as "Currently EL" or "Currently EL Transition Incomplete" students from K, 1st, and 2nd grade who are enrolled in a dual language program.

Summative Designation Meta Indicators/P2 Meta Indicators/3rd Grade Literacy: The percentage of 3rd grade students who have received an A, B, or C (or commensurate standards) in English Language Arts (ELA).

Summative Designation Meta Indicators/Elementary/Middle School Meta Indicators/5th Grade Math: The percentage of 5th grade students who have received an A, B, or C (or commensurate standards) in math.

Summative Designation Meta Indicators/Elementary/Middle School Meta Indicators/Academic Success: The percentage of 6th, 7th, and 8th grade students who have received at least one A or B (or commensurate standards) and no grade of D and F (or commensurate standards) in core content courses in the current academic year.

Summative Designation Meta Indicators/Elementary/Middle School Meta Indicators/Student Discipline: The percentage of 6th, 7th, and 8th grade students who have received a suspension or expulsion in the current academic year.

## Full-Time Equivalents

### What is it?

This shows the total percentage and number of teacher Full-Time Equivalents. The number of teachers at each school varies greatly depending on the student population, schools' grade configuration, programs offered, and the financial resources of the district. This displays the race and gender distribution by FTE for teachers in (this school/this district/the state). The table shows distribution by FTE, of *full-time equivalent*. FTE counts take into consideration employees who are employed less than full time, adding together the representative percentages of their level of employment (so 2 half time/.5 employees = 1FTE). Information is gathered about the race/ethnicity of school and district teachers. The percentage of male and female teachers is also compiled.

## Principal Turnover

### What is it?

Principal Turnover for the school is the number of different principals at the same school in the last six years. At the district and state level, it is the average number of principals at the same school in the past six years. If the number is zero, no current data was provided.

## Average Administrator Salary

### What is it?

This shows the average salary for administrators. This information is reported at the district level.

# Administrators & Support Personnel

## Novice Administrator

### What is it?

The table below represents the percentage of administrators defined as “novice” - having less than 2 full-time equivalent years of combined public school teaching experience. The display summarizes the rate within this district and across the state and highlights the rates across all high-poverty and low-poverty schools in the district (as applicable).

	All Schools	High Poverty Schools	Low Poverty Schools
<b>District</b>	<b>1</b> <b>14.3%</b>	<b>*</b> <b>*</b>	<b>1</b> <b>25.0%</b>

## Support Personnel FTE

### What is it?

This displays the total support personnel (Counselors, School Nurses, School Psychologists, and School Social Workers) by FTE, of *full-time equivalent*. FTE counts take into consideration employees who are employed less than full time, adding together the representative percentages of their level of employment (so 2 half time/.5 employees = 1FTE).

## Pupil Support Personnel Ratio

### What is it?

These tables display the average number of students per counselor, the average number of students per nurse, the average number of students per social worker, and the average number of students per psychologist in this entity (whether it be school, district, or the state.) The ratio is calculated by using the fall enrollment total, divided by the number of FTE psychologists. When examining school or district ratios keep in mind that the number of psychologists can vary greatly between schools and districts, depending on their size, student population, programs, and financial resources.

### Student/Support Personnel Ratio

	Student/School Counselor Ratio	Student/School Nurse Ratio	Student/School Psychologist Ratio	Student/School Social Worker Ratio

## About the data

The Civil Rights Data Collection (CRDC) is a biennial (i.e., every other school year) survey of public schools that has been required by the U.S. Department of Education Office for Civil Rights since 1968. The CRDC collects data on leading civil rights indicators related to access and barriers to educational opportunity from early childhood through Grade 12. The CRDC collects data from public Local Educational Agencies and schools, including juvenile facilities, charter schools, alternative schools, and schools serving only students with disabilities.

## Student Environment

### What is it?

Data from the Civil Rights Data Collection (CRDC) comes directly from the U.S. Department of Education (ED). ED collects the data directly from ISBE and school districts and releases the information on a two- to three-year delay. ISBE also collects some of these data elements from districts and reports the results in the year it was collected. Current year data for in-school suspensions, out-of-school suspensions, and expulsions is reported by ISBE in a separate report on [www.isbe.net](http://www.isbe.net). Current year data for chronic absenteeism can be found in the Students section of the Report Card. Please note data may not match due to differences in data collection methods.

## About the data

The National Assessment of Educational Progress (NAEP), also known as "The Nation's Report Card," is the only nationally representative and continuing assessment that has been conducted periodically in reading, mathematics, science, writing, U.S. history, civics, geography, and the arts. NAEP does not provide scores for individual students or schools; instead, it offers results regarding subject-matter achievement, instructional experiences, and school environment for populations of students (e.g., fourth-graders) and subgroups of those populations (e.g., female students, Hispanic students). NAEP results are based on a sample of student populations of interest. National NAEP reports information for the nation and specific geographic regions of the country. It includes students drawn from both public and nonpublic schools and reports results for student achievement at Grades 4, 8, and 12.
