Dear Parents,

According to The School Code of Illinois 105 ILCS 5/27-8.1, all children in Illinois must have a health examination within one year prior to entering kindergarten and sixth grade. Along with the health examination, each student must show proof of receiving all required immunizations (the required immunizations are listed on the back of this letter). The completed health examination form must be submitted to Spring Hills School before the first day of the 2022-2023 school year. Failure to submit the required forms will result in your child being excluded from school until the forms are received. I have enclosed the required physical examination form. Please take it with you to your doctor and have your doctor complete the form. Please be sure that you complete the Health History portion and that all health problems are noted on the back of the physical examination form. It is important that the school be made aware of problems such as diabetes, epilepsy, allergies, and other chronic conditions that may affect your child's performance in school as well as information that would be needed in an emergency. If you have any questions please do not hesitate to contact me at (630) 529-1883 or (630) 529-1600.

Sincerely,

Laura Hesslink
